Spring into A Perfectly Balanced Operation

- **Rust-Proof High Cycle Torsion Springs**

Excellent for Manual or automated door systems, our high cycle springs offer 100,000 cycles of safe, smooth and perfectly balanced operation.

Choose either our standard hot-dipped galvanized wire for standard corrosion proof protection or upgrade to completely rust-free stainless steel wire.

What Makes Survivor™ Products Better? Quality Components.

The Pioneer of Stainless Steel Track & Hardware

Americans heavy duty stainless steel track and hardware was developed to give you the toughest rust-proof qualities in the industry. Select our Gold or Platinum models with stainless steel hardware to ensure your door will withstand the test of time in the most punishing environments.

Incredibly tough, wear and crack resistant, our 3" track, bearing plates, bearings, shaft, cable, fasteners, 12 ga. face hardware and pusher springs are manufactured with top quality stainless steel. Provides you with the rust-free durability you need in wet, corrosive environments.

Magnum XT™ - Extreme Condition Rollers

The new Magnum XT (patent pending) roller ensures unequalled performance, reliability and maximum durability in the most extreme environments. The new design features a tough, maintenance-free high-density plastic raceway with stainless steel ball bearings that are guaranteed not to rust or seize-up. Specifically designed for wet, high cycle and corrosive environments; the unique Magnum XT bearing design results in lower friction providing quiet, smooth and free-turning operation cycle after cycle. Other features are high-strength, stainless steel stems and tough UHMW tire with new snap-lock design eliminating snap ring failure. Handles up to 52 lbs per roller!!

Guaranteed not to seize-up or rust!

Outstanding Options

- **Powder Coat Finish**

Match your color specifications with a tough, appealing powder-coated frame. Choose from a variety of colors to match your special marketing theme.

- **Nickel Plated Shaftline Components**

Add years to the life of your counterbalance assembly with our rust-proofed drums, cones and couplers.

- **Solid Panels**

Select from aluminum, stainless steel or other 1/8" panel materials to meet your specific needs.

- **Stainless Steel Springs**

Add stainless steel torsion springs for rust-free durability and performance of your door.
