

The Insulated Washbay Door with all of the Benefits.

Your best choice for high moisture areas that require a solid, heavy-duty, insulated door section and rust-resistant hardware.

Providing you with durability, security and energy saving, our 3" insulated washbay door includes a solid, high-strength garage door section that delivers security, and thermal protection coupled with low moisture absorption, corrosion resistance and other features that improve their longevity and reliability in wet conditions.

Select your door model from any of our three great heavy-duty hardware packages and create a system that match your buildings' specific environmental and operational needs.

The Pioneer of Stainless Steel Track & Hardware

American's heavy-duty stainless steel track and hardware were developed to give you the toughest rust-resistant qualities in the industry.

Select our Gold or Platinum models with all or some stainless steel hardware to ensure your door will withstand the test of time in the most punishing environments.

Incredibly tough, wear and crack resistant, our stainless hardware includes: track, springs, bearing plates, bearings, shafts, cable, face hardware, fasteners, accessories and more, all manufactured with high-quality stainless steel or other specialized materials.

Ag-Ready

Dairy • Swine • Poultry • Beef • Crops

Unsurpassed Durability

Constructed of the toughest corrosion resistant materials available, American's 3" insulated washbay doors feature state-of-the-art materials providing maximum life and durability in the most demanding applications

Reliable Operation

Designed for harsh, corrosive and high use applications, these rugged doors offer superior materials and hardware to ensure smooth, easy operation year-after-year, even in wet conditions.

Low Maintenance

Engineered and manufactured for minimal maintenance and service. Reduces annual costs and prevents costly downtime.

Complete Weather Protection

Protects livestock, product, vehicles, building interior and equipment from wind, cold weather and other hazards. The 3" insulated sections offer thermal protection (R-17.05) in any climate.

Platinum

PREMIUM MODEL HARDWARE FEATURES

- Hinges/Hardware: 12 Ga. Stainless Steel
- Track: 3" Heavy Duty Stainless Steel
- Bearing Plates: 12 Gauge Stainless Steel
- Shaft: Solid, Keyed Stainless Steel
- Drums/Couplers: Specialty Coated
- Bearings: Greasable, Stainless Steel
- Cable: 5/32" Stainless Steel
- Rollers: Magnum SP Rollers
- Fasteners: Stainless Steel
- Torsion Spring Models- Stainless Steel

Gold

DELUXE MODEL HARDWARE FEATURES

- Hinges/Hardware: 12 Ga. Stainless Steel
- Track: 3" Heavy Duty Galvanized
- Bearing Plates: 12 Gauge Stainless Steel
- Shaft: Solid, Keyed Stainless Steel
- Drums/Couplers: Specialty Coated
- Bearings: Greasable, Stainless Steel
- Cable: 5/32" Stainless Steel
- Rollers: Magnum™ Rollers
- Fasteners: Stainless Steel
- Torsion Spring Models- Galvanized

Silver

COMPETITIVE MODEL HARDWARE FEATURES

- Hinges/Hardware: 11 Gauge Galvanized
- Track: 3" Heavy Duty Galvanized
- Bearing Plates: 11 Gauge Galvanized
- Shaft: Solid, Keyed Galvanized Steel
- Drums/Couplers: Cast Alum. / Cast Iron
- Bearings: Greasable, Standard
- Cable: 5/32" Stainless Steel
- Rollers: Magnum™ Rollers
- Fasteners: Galvanized
- Torsion Spring Models- Galvanized

A Wet Environment Industry Leader...

Our 3" Sections are roll-formed from hot-dipped galvanized commercial quality steel. The exterior and interior skins are 26 ga. pebble textured steel, pressure-bonded to an extruded, closed-cell polystyrene which has minimal moisture absorption qualities unlike expanded polystyrene (bead-board) type products.

The exterior and interior skins are separated to form an effective thermal barrier and the weatherstripping between each section provides a weathertight seal for thermal efficiency. The overall section offers an R-value of 17.05.

Tongue and groove rail design preventing "water-traps" and potential door damage due to accumulated and/or frozen moisture for maximum section life in wet conditions.

End stiles are manufactured with 16 ga. galvanized steel with a durometer thermal break.

Options

- Colors: (White or Brown)
- 2" or 3" Track
- Window Lites
- High-Cycle Springs
- Brush Weatherseal

Applications

Agricultural

- Livestock Facilities
- Poultry Farms
- Slaughterhouses
- Vegetable Warehouses
- Fertilizer Plants
- Farm Service Shops

Commercial

- Car & Truckwashes
- Auto Dealerships
- Service Stations
- Marine Environments
- Salt Sheds
- Ambulance Centers

Industrial

- Food Processing
- Material Handling
- Cold Storage
- Chemical Plants
- Manufacturing Plants
- Cement Yards

and many more...
